

Iceberg Lettuce

FOR RETAIL

Although Iceberg Lettuce may have a lower nutrition profile than darker lettuce varieties, it has long been a favorite for shoppers who like the crispy texture in salads and on sandwiches and burgers. Its crisp, crunchy texture lets it add volume to salads, carry any type of creamy, thick dressings with ease, and take the place of a wrap, bowl or bun in low-carb dishes. Iceberg Lettuce is available year round and has a refreshing crunch, high water content and mildly sweet flavor.

Selecting Iceberg Lettuce

Heads of Iceberg Lettuce should be uniform in size, shape and color. They should be compact, have medium firmness, and be springy to the touch with a light green color. Avoid lettuce with wilted or discolored outer leaves.

Storage & Handling

For maximum shelf life and freshness, store lettuce in 34-36 degree F refrigeration. Keep lettuce away from drafts to prevent dehydration. Store lettuce away from ethylene-producing fruits and ripening rooms. Follow good rotation practices; first shipments received should be used or displayed first.
